

SureFix Web

Location	Reported Date	Progress	Scenario / Description
Mobile Landing Page	07-08-2026		"Rated by 4.9..." text is displayed twice. Keep only one instance.
Mobile Landing Page	07-08-2026		Replace blank customer profile placeholders with customer avatars/profile images to improve trust and credibility.
Homepage → Header → Top Bar	07-08-2026		Remove duplicate phone no. from the top info bar as it is already available in the Nav CTA. Keep the top bar on Service
Header Nav + Footer → Useful Links	07-08-2026		"Blog" is available in the Header Nav but missing under Footer → Useful Links. Add "Blog" to Useful Links.
Homepage → Callback Form	07-08-2026		Add a short consent statement with Privacy Policy link near the Submit button for DPDP compliance.
Homepage → Callback Form	07-08-2026		Visually separate and clearly define the callback form section for better UX.
Homepage → Services → Service Cards	07-08-2026		Standardize all service-card CTA labels to "Book Now".
Homepage → Services → Service Cards	07-08-2026		Normalize service-card descriptions to a similar length, structure and level of detail across all services.
Homepage → Services → Service Cards	07-08-2026		Add relevant appliance icons to each service card for quick visual identification.
Homepage → Services → Service Cards	07-08-2026		Improve the visual prominence of the "Book Now" CTA for better conversion visibility.
Homepage → Brands → Logo Strip	07-08-2026		Replace text-based brand names with official brand logos using the existing/fair-color visual treatment.
Homepage → Process Section	07-08-2026		Reduce the process to 3 clear steps.
Homepage → Process Section	07-08-2026		Add a connecting line/arrow between the 3 steps to visually indicate the process flow.
Homepage → Reviews	07-08-2026		Convert reviews into a swipeable carousel/slider on mobile to reduce page length and scrolling.
Service Pages	07-08-2026		Add a relevant, high-quality service image to each service page.
Service Pages → Booking Flow	07-08-2026		Implement the provided visual booking-flow design with selectable visual buttons/icons for easier appliance/service selection.
Service Pages → Booking Flow → Mobile	07-08-2026		Fix the mobile booking-flow layout shift. After clicking "Next", the page currently jumps/draggs upward. Maintain consistent scroll position and layout between steps.
Service Pages → Booking Flow	07-08-2026		Use the shared HTML booking-flow reference sent via email as the design/UX reference. Please check the email for the complete flow.
Service Pages → Booking Flow	07-08-2026		Ensure the booking flow remains consistent in UI, spacing, CTA placement and navigation across all service pages and devices.
